National Indian Gaming Commission

**NOTICE OF AVAILABILITY OF A DRAFT SUPPLEMENTAL ENVIRONMENTAL
IMPACT STATEMENT FOR THE JAMUL INDIAN VILLAGE PROPOSED GAMING
MANAGEMENT AGREEMENT, SAN DIEGO COUNTY, CALIFORNIA**

AGENCY: National Indian Gaming Commission (NIGC), Interior.

ACTION: Notice of Availability (NOA).

SUMMARY: In accordance with Section 102(2)(C) of the National Environmental Policy Act (NEPA), the NIGC, in cooperation with the Jamul Indian Village has prepared a Draft Supplemental Environmental Impact Statement (Draft SEIS) for the proposed Gaming Management Agreement (GMA) between the Jamul Indian Village (JIV) and San Diego Gaming Ventures (SDGV). If approved, the GMA would allow SDGV to assume responsibility for operation and management of the JIV Gaming Facility located in San Diego County, California. The Draft SEIS addresses the effects of GMA approval and the No Action Alternative, which assumes no GMA, is approved. The SEIS also updates the environmental baseline given the time that has passed and the changes that have been made to the scope of the Proposed Action, which was originally addressed in the 2003 Final EIS.

SUPPLEMENTAL INFORMATION:

The JIV Reservation is located in the unincorporated portion of southwestern San Diego County approximately one mile south of the community of Jamul on approximately six-acres of land held in federal trust. State Route 94 (SR-94) provides regional access to the JIV from downtown San Diego, which is located approximately 20 miles to the west where it intersects with Highway 5. Local access to the JIV is provided directly from SR-94 via Daisy Drive. From the JIV, SR-94 travels briefly north and then west to Downtown San Diego, passing through the unincorporated communities of Jamul, Casa de Oro, Spring Valley and Lemon Grove.

In 2000, JIV proposed a fee-to-trust land acquisition, construction and operation of a gaming complex and approval of a gaming development and management agreement for operation of the JIV Gaming Facility. The proposal was evaluated in a Final EIS prepared in 2003. Since that

time, several major items have been removed from JIV's overall development program and the Gaming Facility has been redesigned to fit entirely within the existing JIV Reservation. All environmental effects of the Gaming Facility redesign have been evaluated through preparation of a Final Tribal Environmental Evaluation, which was prepared in accordance with the 1999 Tribal/State Compact. No action is before the BIA due to no fee-to-trust component of the JIV proposal. An action from the NIGC is required; specifically, approval or disapproval of the GMA. That approval or disapproval is the Proposed Action evaluated in the Draft SEIS.

In addition to the Proposed Action, the Draft SEIS addresses the No Action Alternative, which assumes no approval of the GMA between JIV and SDGV. Under the No Project scenario, JIV would assume operation and management responsibilities of the Jamul Gaming Facility. The NIGC may, in its Record of Decision, select the No Project Alternative rather than the Proposed Action.

This Draft SEIS updates environmental conditions in the affected area given the amount of time that has passed since the 2003 Final EIS. Environmental issues addressed within the Draft SEIS include land resources, water resources, air quality, biological resources, cultural/paleontological resources, socioeconomic conditions, transportation, land use, public services, hazardous materials, noise, and visual resources. The Draft SEIS examines the direct, indirect, and cumulative effects of each alternative on these resources. The NIGC published a Notice of Intent (NOI) in the *Federal Register* on April 10, 2013, describing the Proposed Action, announcing the NIGC's intent to prepare a Draft SEIS for the Proposed Action, and inviting comments. The Draft SEIS is made available to federal, Tribal, state, and local agencies and other interested parties for review and comment.
